## **Construction To Begin on New Firehouse**

Louisville received notice today from the Federal Government that we have been awarded a \$3.3 million grant for construction of a new firehouse in Beechmont. We were in competition with several other cities who also had “shovel ready” projects. The entire project is estimated to cost about \$4 million with the difference coming from the sale of bonds.

Construction will begin within a very short period and should be completed by late next summer. I will send more information as it becomes available.

Dan
