

**Partnership for a Green City  
Climate Change Committee  
Recommended Climate Change Strategies  
DRAFT Table of Contents**

**1. Executive Summary**

**2. Introduction**

- 2.1. Climate Change: An Introduction
- 2.2. Mayor's Agreement
- 2.3. Partnership for a Green City (PGC)
- 2.4. Recommendations for PGC Implementation of this Report

**3. Louisville's Greenhouse Gas Emissions**

- 3.1. Community-Level Inventory
- 3.2. Partnership Inventories
- 3.3. Reduction Targets
- 3.4. Recommendations for Future Inventory Efforts

**4. Local Impacts**

- 4.1. Louisville Metro's Climate History
  - 4.1.1. Temperature
  - 4.1.2. Precipitation
  - 4.1.3. Extreme Weather Events
- 4.2. Sector Impacts on Louisville Metro
  - 4.2.1. Forest Ecosystems
  - 4.2.2. Aquatic Ecosystems
  - 4.2.3. Agriculture
  - 4.2.4. Hydrology
  - 4.2.5. Energy
  - 4.2.6. Transportation
  - 4.2.7. Infrastructure
  - 4.2.8. Business
  - 4.2.9. Public Health
- 4.3. Response Preparedness
  - 4.3.1. Syndromic Surveillance
  - 4.3.2. Natural Hazards Mitigation Plan
  - 4.3.3. Air Quality Monitoring / Alerts
  - 4.3.4. Extreme Weather Plan
- 4.4. Recommendations and Best Practices

**5. Emission Reduction Strategies**

- 5.1. Energy Use and Climate Change
  - 5.1.1. Energy Efficiency
    - 5.1.1.1. Recommendations to Partners
    - 5.1.1.2. Recommendations to Community
      - 5.1.1.2.1. Residential
      - 5.1.1.2.2. Commercial
      - 5.1.1.2.3. Industrial
  - 5.1.2. Renewable Energy
    - 5.1.2.1. Recommendations to Partners

- 5.1.2.2. Recommendations to Community
- 5.1.3. Utility Regulations, Policies and Practices
  - 5.1.3.1. Recommendations to Utility and Regulatory Authorities
- 5.2. Land Use and Climate Change
  - 5.2.1. Impacts of Land Use on Climate Change
    - 5.2.1.1. Development Patterns and Urban Form
    - 5.2.1.2. Land as a Carbon Sink
  - 5.2.2. Impacts of Climate Change on Land Use
  - 5.2.3. Examples of Local Land Use Responses to Climate Change in Other Cities
  - 5.2.4. Recommendations for Land Use Principles, Strategies, and Action Plans
    - 5.2.4.1. Alternatives to Automobile-Dependent Development
    - 5.2.4.2. Efficient Use of Existing Sites, Areas, and Infrastructure
    - 5.2.4.3. Energy-Efficient Buildings and Sites
    - 5.2.4.4. Environmental Impact Information
    - 5.2.4.5. Long-Range Planning with Climate Change Scenarios
    - 5.2.4.6. Green Infrastructure and Land Conservation
    - 5.2.4.7. Urban Runoff and Low-Impact Development
    - 5.2.4.8. Sustainable Local Agriculture and Food Security Access
    - 5.2.4.9. Regional Collaboration
    - 5.2.4.10. Improved Enforcement Tools
    - 5.2.4.11. Public Education & Engagement about Sustainable & Responsible Land Use
    - 5.2.4.12. Water Planning
- 5.3. Urban Forestry and Climate Change
  - 5.3.1. Recommendations to Partners
  - 5.3.2. Recommendations at the Residential Land-Use Level
  - 5.3.3. Recommendations for Developers [Land Development?]
  - 5.3.4. Recommendations for the Department of Transportation
  - 5.3.5. Relationship to Louisville's Community of Trees
- 5.4. Transportation and Climate Change
  - 5.4.1. Recommendations for Partners' Fleets
    - 5.4.1.1. Vehicle Operating Practices
    - 5.4.1.2. Vehicle Technology
    - 5.4.1.3. Fuel and Energy Efficiency Standards
    - 5.4.1.4. Transportation Demand Management
  - 5.4.2. Recommendations for Onroad Community Fleet
    - 5.4.2.1. Vehicle Operating Practices
  - 5.4.3. Recommendations for Nonroad Community Mobile Sources
    - 5.4.3.1. Construction Equipment
    - 5.4.3.2. Marine
    - 5.4.3.3. Other Nonroad
  - 5.4.4. Recommendations for Public Transportation
    - 5.4.4.1. Cost of Transportation
  - 5.4.5. Recommendations for Transportation Planning
    - 5.4.5.1. Economic Development and Land Use Policies
    - 5.4.5.2. Freight Mobility
    - 5.4.5.3. Congestion Mitigation
    - 5.4.5.4. Parking / Tolls / Congestion Pricing
  - 5.4.6. Additional Benefits Derived From Recommended Actions
    - 5.4.6.1. Spatial Mismatch Between Jobs and Workers
    - 5.4.6.2. The Age Wave and Transportation Access
    - 5.4.6.3. Public Health Concerns

5.4.7. Requirements to Facilitate Recommendations

5.4.7.1. Political / Institutional Factors

5.4.7.2. Transportation Project Funding

5.4.8. Transportation Summary Conclusion

## **6. Funding Possibilities**

## **7. Appendices**
