

ATTEN. G'ALL B

I would like to start home school. He has missed most of the year. He has health problems. He is 16. I could just take him out but I want him to be able to get an education. He has Asma extremely bad also Acid Ref. which makes him sick most of the time. Also extremely bad allergies. But now he has headache that make him sick. The light, noise all make it hard on him to do anything. He had a CT scan last wk. On Sat 12-8 He had a MRI of his brain. They are trying to find out what's wrong. But I don't want him to get any further behind. So I would like to home school him so he can learn some thing. His name is [redacted] He goes to [redacted] High school

[redacted]

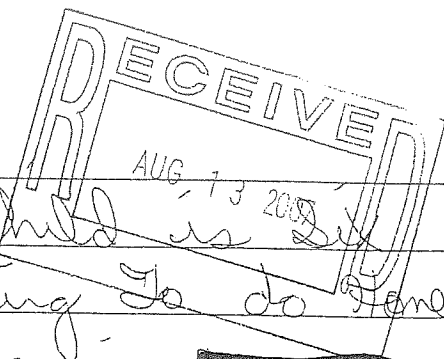

[redacted]

[redacted] ST.

Low. KY. [redacted]

Thank you
