Note: Architectural renderings are required for all multi-family or non-residential development proposals, if not submitted with initial application materials, this information must be provided at the time of revision submittal.

* Plans distributed when development will cause an impact to state roads/highways

**Distribution to be determined by Case Manager based on environmental impact/conditions relating to proposal

^Landmarks reviews are required when site is affected by national registered district or structure

^^Overlay reviews are required when the subject property is located within an established overlay district

Multiple requests for the same case shall be shown on one comprehensive plan with all requests indicated

A different number of plans may be requested at the time of revisions, please verify required number of revised plans with case manager
