

Mae Lathon has been with local government since 1985. She became a Relocation Advisor in 1989, and served in that capacity for 13 years. In 2002, she began her current assignment in the Weatherization Program overseeing the intake and education component of the program. In that role she makes home visits to every household who will receive weatherization assistance, explains the program, and provides energy conservation information and training to family members.
